

VII MEĐUNARODNI KONGRES KARDIONEfrologije - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

PROGRAM / PROGRAMME

Četvrtak / Thursday, 29.05.2025 – KONFERENCIJSKA SALA 1 / CONFERENCE HALL 1

Satnica / Time	Tema / Topic	Predavač / Lecturer
08:00-09:00	Registracija učesnika / Registration	
I sesija: Eksperimentalna kardioneurologija Session I: Experimental cardioneurology (09:00-10:10)		<i>Predsedništvo / Presidency</i> Prof. dr Jelena Nešović-Ostojić Doc. dr Sanjin Kovačević
09:00-09:15	Hiperbarična oksigenacija i akutno bubrežno oštećenje - rezultati eksperimentalnih studija Hyperbaric oxygenation and Acute Kidney Injury - Data obtained from experimental studies	Doc. dr Sanjin Kovačević
09:15-09:30	Uticaj hiperbarične oksigenacije na sastav makro i oligoelemenata u tkivu bubrega Effects of hyperbaric oxygenation on macro and oligoelements composition in kidney tissue	Asist. dr Andrija Vuković
09:30-09:45	Uloga vazopresina u adaptaciji na trudnoću u hroničnoj hipertenziji Role of vasopressin in adaptation to pregnancy in chronic hypertension	Asist. dr Mirjana Jovanović
09:45-10:00	Uloga kadmijuma u nastanku morfoloških i funkcionalnih poremećaja srca kod zebri (Danio rerio) The impact of cadmium on the development of morphological and functional cardiac disruption in zebrafish (Danio rerio)	Prof. dr Jelena Nešović-Ostojić Asist. dr Nikola Mitrović
10:00-10:10	Odgovor bubrega i belog masnog tkiva na dugotrajnu ishranu bogatu mastima: Response of the kidneys and white adipose tissue to long-term high-fat diets: specific distribution of phospholipid fatty acids Dikusija / Discussion	Dr Aleksandra Nenadović,

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

II sesija: Da li je razumevanje etiopatogeneze udruženih bolesti srca i bubrega pravi put u njihovom lečenju? Session II: Is understanding the etiopathogenesis of associated heart and kidney diseases the right way in their treatment ? (10:10-11:35)		<i>Predsedništvo / Presidency</i> Prof. dr Vladimir Petrović Prof. Dr. Sebastjan Bevc
10:10-10:25	Šta je novo u proceni etiopatogenetskih modaliteta kardiorrenalnih bolesti? What is new in the assessment of etiopathogenetic modalities of cardiorenal diseases?	Dr. Rodolfo Rivera
10:25-10:40	Disfunkcija bubrega kod kardiovaskularnih bolesti - od molekularnog do kliničkog nivoa Renal dysfunction in cardiovascular diseases - from the molecular to the clinical level	Prof. dr Vladimir Petrović
10:40-10:55	Vitamin D i kardiorrenalne bolesti Vitamin D and cardiorenal diseases	Prof. Dr. Sebastjan Bevc Asist. dr Tadej Petreski
10:55-11:10	Uloga uremičnih toksina u nastanku KVS oštećenja The role of uremic toxins in the development of CVD damage	Prof. dr Dejan Pilčević
11:10-11:25	Amiloidoza kao uzrok nastanka ili faktor progresije kardiorrenalnih oštećenja Amyloidosis as a cause or factor in the progression of cardiorenal damage	Prof. Dr. Suzanne R. Hayman
11:25-11:35	Diskusija / Discussion	
11:35-11:40	Pauza / Pause	
III sesija: Bubrež, dijaliza, transplantacija - srce u fokusu Session III: Kidney, dialysis, transplantation - focus on the heart (11:40-12:50)		<i>Predsedništvo / Presidency</i> Prof. Dr. Jadranka Buturović-Ponikvar Prof. Dr. Isidre Vilacosta
11:40-11:55	Spektar kardiovaskularnih bolesti kod hronične bolesti bubrega Cardiovascular disease spectrum in chronic kidney disease	Prof. dr Predrag Otašević

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

11:55-12:10	Valvularna bolest srca kod pacijenata sa hroničnom bolešću bubrega - savremeni aspekti dijagnoze i lečenja Valvular heart disease in patients with chronic kidney disease - modern aspects of diagnosis and treatment	Prof. Dr. Isidre Vilacosta
12:10-12:25	Balansiranje rizika i koristi od koronarne revaskularizacije kod pacijenata sa hroničnim bubrežnim oboljenjima Balancing risks and benefits of coronary revascularization in patients with chronic renal diseases	Asist. dr Nenad Božinović
12:25-12:40	Aterosklerotična renovaskularna bolest i kardiovaskularni rizik Atherosclerotic renovascular disease and cardiovascular risk	Prof. Dr. Jadranka Buturović-Ponikvar
12:40-12:50	Diskusija / Discussion	
12:50-13:20	<i>Plenarno predavanje</i> Nekontrolisana hipertenzija u trudnoći <i>Plenary Lecture</i> Uncontrolled hypertension in pregnancy	Prof. Dr. Vesna Garović
13:20-14:30	Poster sesija I / Poster Session	<i>Predsedništvo / Presidency:</i> Prof. dr Dejan Pilčević
14:30-15:30	Razgovor sa ekspertom / Talking to an Expert Pauza za ručak / Lunch break	Prof. dr Goran Koraćević
EDUKATIVNI SEMINAR I: Uloga savremenih imidžing tehnika u dijagnostici i tretmanu bolesti srca i bubrega EDUCATIONAL SEMINAR I: The role of modern “imaging” techniques in the diagnosis and treatment of heart and kidney diseases (15:30 - 17:10)		<i>Moderatori / Moderators:</i> Prof. dr Ružica Maksimović – uvodna reč / introduction Dr. Alexandros Kallifatidis – završna reč / conclusion
15:30-15:45	Renovaskularna hipertenzija sa aspekta moderne radiološke dijagnostike Renovascular hypertension from the aspect of modern radiological diagnostics	Dr Nikola Laban
15:45-16:00	Vaskularne kalcifikacije u bolestima srca i bubrega – uloga radiologa u dijagnostici i prognozi Vascular calcifications in heart and kidney diseases - the role of radiologists in diagnosis and prognosis	Dr Vesna Stokanović

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

16:00-16:15	Magnetna rezonanca u bolestima srca - veliki dijagnostički izazov 21. veka Magnetic resonance in heart diseases - a great diagnostic challenge of the 21st century	Dr Olga Nedeljković-Arsenović
16:15-16:30	Procena stanja perfuzije srca i bubrega - značaj u ranoj dijagnostici i prevenciji Assessment of the state of perfusion of the heart and kidneys - importance in early diagnosis and prevention	Dr. Alexandros Kallifatidis
16:30-16:45	Kako koristiti rezultate savremenih imidžing tehnika u dijagnostici udruženih bolesti srca i bubrega How to use the results of modern "imaging" techniques in the diagnosis of associated diseases of the heart and kidneys	Prof. dr Zorica Dimitrijević
16:45-17:00	Zašto je ehosonografija srca neizostavna dijagnostička procedura kod pacijenata sa primarnim bolestima bubrega Why echosonography of the heart is an indispensable diagnostic procedure in patients with primary kidney diseases	Prof. dr Milan Pavlović
17:00-17:10	Diskusija / Discussion	
17:10-17:25	Pauza / Pause	
IV sesija: Prevencija i lečenje kardioresrenalnih bolesti u svetlu kontinuirane saradnje kardiologa i nefrologa Session IV: Prevention and treatment of cardiorenal diseases in the light of continuous cooperation between cardiologists and nephrologists (17:25-19:15)		<i>Predsedništvo / Presidency</i> Prof. dr Zorana Vasiljević Prof. Dr. Rafael Ponikvar
17:25-17:40	Ishemijska bolest srca kod pacijenata sa hroničnim bolestima bubrega – da li je moguća prevencija? Ischemic heart disease in patients with chronic kidney disease – is prevention possible?	Prof. dr Zorana Vasiljević
17:40-17:55	Lečenje atrijske fibrilacije kod pacijenata na hemodijalizi: savremena tehnika Management of atrial fibrillation in hemodialysis patients: state of the art	Prof. Dr. Rafael Ponikvar
17:55-18:10	Antikoagulantna terapija kod kardioresrenalnih pacijenata – od sadašnjosti do budućnosti Anticoagulant therapy in cardiorenal patients – from present to future	Dr. Antonio Bellasi

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

18:10- 18:25	Da li je popravak mikrobiotskog disbalansa početak kardioresnalnoj protekciji? Is the repair of microbiotic imbalance the beginning of the story of cardiorenal protection?	Prof. Dr. Pavel Skok
18:25- 18:40	Rezidualna funkcija bubrega i prevencija KVS rizika – da li smo sve rekli? Residual renal function and prevention of CVD risk – have we said everything?	Prof. dr Zorica Dimitrijević
18:40- 18:55	Diuretska terapija u bolestima srca i bubrega - gde grešimo? Diuretic therapy in heart and kidney diseases - where are we going wrong?	Prof. dr Sonja Radenković
18:55- 19:05	Diskusija / Discussion	
19:05- 19:30	Pauza / Pause	
19:30- 20:00	<i>Plenarno predavanje</i> Od kardioresnalne interakcije do kardionefrologije <i>Plenary Lecture</i> From cardiorenal interaction to cardionephrology	Prof. Dr. Luca Di Lullo <i>Uvod / Introduction:</i> Prof. Dr. Radovan Hojs
20:00- 20:30	Svečano otvaranje kongresa Opening ceremony	

VII MEĐUNARODNI KONGRES KARDIONEfrologije - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

Četvrtak / Thursday, 29.05.2025 – KONFERENCIJSKA SALA 2 / CONFERENCE HALL 2

Satnica / Time	Tema / Topic	Predavač / Lecturer
V sesija: Slobodna saopštenja - Mladi u kardionefrologiji Session V: Free communications - young people in cardioneurology (09:00 – 10:00)		Predsedništvo / Presidency Prof. dr Milan Pavlović Prof. dr Neven Vavić
10:00-11:00	Radionica / Educational workshop Ehokardiografija srca – dijagnostički izazovi i dileme Echocardiography of the heart – diagnostic challenges and dilemma	Prof. dr Goran Koraćević Prof. dr Milan Pavlović
11:00-11:15	Pauza / Pause	
11:15-12:15	Radionica / Educational workshop Kako adekvatno meriti bubrežnu funkciju – od ordinacije primarne zdravstvene zaštite do funkcionalne dijagnostike klinika za nefrologiju How to adequately measure kidney function – from primary health care clinics to functional diagnostics in nephrology clinics	Prof. dr Jelena Nešović-Ostojić Prof. Dr. Robert Ekart

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

Petak / Friday, 30.05.2025 – KONFERENCIJSKA SALA 1 / CONFERENCE HALL 1

Satnica / Time	Tema / Topic	Predavač / Lecturer
VI sesija: Plućna hipertenzija kao nezaobilazni deo kardiorespulmonalnog rebusa Session VI: Pulmonary hypertension as an unavoidable part of the cardiorespulmonary puzzle (08:00–08:55)		<i>Predsedništvo / Presidency:</i> Prof. dr Ilija Andrijević Prof. Dr. Davide Viggiano
08:00- 08:15	Plućna hipertenzija u kardiorespulmonalnom sindromu Pulmonary hypertension in cardiorespulmonary syndrome	Prof. dr Ilija Andrijević
08:15- 08:30	Prognostički efekat plućne hipertenzije kod pacijenata sa hroničnim oboljenjima bubrega Prognostic effect of pulmonary hypertension in patients with chronic kidney diseases	Prof. Dr. Davide Viggiano
08:30- 08:45	Sadašnji i budući pristupi u lečenju plućne hipertenzije Current and future prospects in treatment of pulmonary hypertension	Prof. dr Milan Radović
08:45- 08:55	Diskusija / Discussion	
VII sesija: Izazovi novih terapija i terapijskih postupaka u lečenju bolesti srca i bubrega Session VII: Challenges of new therapies and therapeutic procedures in the treatment of heart and kidney diseases (08:55-10:35)		<i>Predsedništvo / Presidency:</i> Prof. Dr. Luca Di Lullo Prof. Dr. Eduardo Gronda
08:55- 09:10	Nove terapije za lečenje refraktorne kongestivne srčane insuficijencije – PURE studija Novel therapies for the treatment of Refractory Congestive Heart Failure – PURE study	Prof. Dr. Edoardo Gronda
09:10- 09:25	Nove granice u lečenju dijabetesne kardioneuropatije New frontiers in treatment of diabetic cardioneuropathy	Prof. Dr. Luca Di Lullo

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

09:25-09:40	Uloga sacabutil/ valsartana kod hroničnih bubrežnih pacijenata sa srčanom insuficijencijom The role of sacubitril/valsartan in patients with advanced chronic kidney disease and heart failure	Prof. Dr. Robert Ekart
09:40-09:55	Usporavanje progresije kardiovaskularnih kalcifikacija sa SNF472 kod pacijenata na hemodijalizi: Rezultati randomizirane studije, faza 2b Slowing Progression of Cardiovascular Calcification with SNF472 in Patients on Hemodialysis: Results of a Randomized Phase 2b Study	Prof. Dr. Paolo Raggi
09:55-10:10	Mehanizmi koji podržavaju kardiovaskularnu zaštitu hemodijafiltracijom kod pacijenata u završnoj fazi bubrežne bolesti: Sveobuhvatni pregled Mechanisms Supporting Cardiovascular Protection of Hemodiafiltration in End-Stage Kidney Disease Patients: A Comprehensive Review	Prof. Dr. Bernard Canaud
10:10-10:25	SGLT2 inhibitori kod pacijenata sa transplantiranim bubregom – naša prva iskustva SGLT-2 inhibitors in kidney transplantation – our first experiences	Prof. dr Neven Vavić
10:25-10:35	Diskusija / Discussion	
10:35-11:50	Pauza / Pause	
10:50-11:20	EDUKATIVNI SEMINAR II: Kada, kako i zašto je neophodno proceniti stanje funkciju bubrega kod kardiovaskularnih pacijenata? EDUCATIONAL SEMINAR II: When, how and why is it necessary to assess the state of kidney function in cardiovascular patients?	<i>Moderatori / Moderators:</i> Prof. dr Jelena Nešović-Ostojić Prof. Dr. Robert Ekart
11:20-12:00	Poster sesija II / Poster Session II Razgovor sa ekspertom / Talking to an Expert	<i>Predsedništvo / Presidency</i> Dr. Rodolfo Rivera Prof. dr Jelena Nešović-Ostojić

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

12:00-15:00	Pauza za ručak / Lunch break	
VIII sesija: Multidisciplinarni pristup u tretmanu pacijenata sa kardioresrenalnim komorbiditetima Session VIII: A multidisciplinary approach to managing patients with cardioresrenal comorbidities (15:00-16:30)		<i>Predsedništvo / Presidency:</i> Prof. Dr. Radovan Hojs Dr. Fluvio Floccari
15:00-15:20	Kardioresrenalna metabolička konekcija - imamo li mogućnosti za rešenje ovog problema? Cardioresrenal metabolic connection - do we have possibilities to solve this problem?	Prof. Dr Andrew Krentz
15:20-15:40	Gojaznost u kardioresrenalnim bolestima u svetlu najnovijih preporuka za njeno lečenje Obesity and cardioneurology – guidance on the management	Prof. Dr. Radovan Hojs
15:40-16:00	Uloga multidisciplinarnog tima u prekidanju kardioresrenalnog kontinuuma The role of the multidisciplinary team in interrupting the cardioresrenal metabolic continuum	Prof. Dr. Sebastjan Bevc
16:00-16:20	Kardioresrenalno-anemijski sindrom i nedostatak gvožđa: novi izazovi u prevenciji i lečenju Cardioresrenal-anemic syndrome and iron deficiency: new challenges in prevention and treatment	Dr. Fluvio Floccari
16:20-16:30	Diskusija / Discussion	
IX sesija: Kardioneurologija u svakodnevnoj kliničkoj praksi Session IX: Cardioneurology in everyday clinical practice (16:30-17:40)		<i>Predsedništvo / Presidency:</i> Prof. dr Petar Otašević
16:30-16:45	Šta kardiolog mora da zna o bubrežnoj slabosti? What does a cardiologist need to know about kidney failure?	Prof. dr Petar Otašević

VII MEĐUNARODNI KONGRES KARDIONEFROLOGIJE - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

16:45-17:00	Bubrežna funkcija kod bolesnika sa srčanom slabošću – prikaz slučaja Renal function in patients with heart failure - case report	Asist. dr Nenad Božinović
17:00-17:15	Novi lekovi koji poboljšavaju prognozu kod kardioresalnog sindroma New drugs that improve prognosis in cardiorenal syndrome	Prof. dr Ivana Petrović
17:15-17:30	Bubrežna funkcija i ishodi nakon kardiohirurške intervencije – prikaz slučaja Renal function and outcomes after cardiac surgery - case report	Asist. dr Mirjana Jovanović
17:30-17:40	Diskusija / Discussion	

Petak / Friday, 30.05.2025 – KONFERENCIJSKA SALA 2 / CONFERENCE HALL 2

Satnica / Time	Tema / Topic	Predavač / Lecturer
09:00-10:00	Radionica / Educational workshop:	
	Izbor i doziranje lekova kod pacijenata sa oštećenom bubrežnom funkcijom Selection and dosage of drugs in patients with impaired renal function	Prof. dr Miroslav Radenković
10:00-11:00	Radionica / Educational workshop:	
	Osnovni principi dijetoterapije u tretmanu bolesnika sa udruženim bolestima srca i bubrega The basic principles of diet therapy in the treatment of patients with associated heart and kidney	Dr Ivana Šarac
11:00-11:15	Pauza / Pause	

Srbija, Pirot, 29-30. maj 2025. / Serbia, City of Pirot, May 29-30, 2025
Dom kulture Pirot / Cultural Center Pirot

VII MEĐUNARODNI KONGRES KARDIONEfrologije - KARNEF 2025
VII INTERNATIONAL CONGRESS OF CARDIONEPHROLOGY – KARNEF 2025

11:15-12:15	Panel diskusija: Šta pacijenti mogu da kažu o svojoj bolesti? Panel discussion: What can patients say about their illness?	
12:15-13:30	Susret građanstva Pirota sa pozvanim predavačima "Karnef 2025" Meeting of citizens with invited lecturers of the "Karnef 2025"
