

STATEMENT OF AUTHORSHIP

THIS FORM IS TO BE FILLED OUT, SCANNED AND SENT
DURING THE SUBMITTING ARTICLE

The manuscript titled:

is being sent to the Serbian Journal of the Medical Chamber, for the purpose of publication.

The authors of the paper declare that they meet ALL of the following conditions:

1. they contributed to the idea, plan, data collection, analysis and interpretation of the data;
2. they produced the manuscript or critically corrected its significant intellectual content;
3. they edited the version for publication.

Each author is responsible for a given section or sections of the manuscript, its content, as well as the possible conflict of interest. Those who do not meet the said criteria should be listed (with their written consent) in the acknowledgements.

Plagiarism: The Authors must be certain that they have written a completely original paper, and if they have used the work and/or words of other authors, this must be properly cited and referenced. The Authors state that they accept all principles of antiplagiarism and that they abide by them. Since plagiarism is ethically, scientifically and professionally unacceptable and can be committed in various ways, the Authors confirm in this Statement that the manuscript that has been sent to the Journal, and its parts, are not plagiarized, that they have been notified and that they consent to the Journal's Editorial Board subjecting their manuscript to standard and internationally recognized methods for testing plagiarism.

STATEMENT

The undersigned state that:

1. This is an original paper and does not violate copyright law or other property rights of third parties, that it has not been submitted for publication in another journal, nor that it has been previously published;
2. Following publication, the undersigned author(s) shall transfer the exclusive copyright of the abovementioned manuscript to the Serbian Journal of the Medical Chamber. The contribution of the individual authors in the preparation of the manuscript is defined according to the following criteria:
 - a. idea,
 - b. form of the study, methodology of carrying out the study,
 - c. data acquisition and collection,

- d. data analysis and interpretation,
- e. writing the manuscript,
- f. revision of the paper,
- g. other (describe) _____

Conflict of interests: None (/)

Yes (describe): _____
